EDUCATION

University of British Columbia

Bachelor of Applied Science in Chemical Engineering

Teaching Assistant for APSC160 (Introduction to Computation in Engineering Design, C)

Cumulative GPA: 3.53/4.33

September 2021 – April 2026

August 2022 – December 2025

EXPERIENCE

Tesla

Fremont, CA

Incoming Product Engineer Intern

August 2026 – December 2026

- Own product initiatives end-to-end across Tesla's vehicle ordering and configuration platforms to improve order conversion.

Hootsuite

Vancouver, BC

Product Manager Intern

January 2026 – April 2026

- Revitalized a stalled Teams & Orgs beta by building a Mixpanel framework **tracking 15+ conversion events, uncovering 40% of user drop-offs** going untracked and coordinating instrumentation fixes across 3 cross-functional teams.
- **Triaged 20+ bug tickets** across the Beta rollout spanning enterprise, SMB, and core-plan customers, prioritizing fixes for team creation failures and high bounce rates that directly impacted customer activation.
- Led Launch Readiness for SCIM and Data Retention, shipping both to customers and coordinating enablement with Customer Success.
- Conducted qualitative user discovery through FullStory session replays, translating behavioral insights into concrete UX changes.

Electronic Arts (EA)

Vancouver, BC

Product Manager Intern

May 2025 – August 2025

- **Achieved a 32% sign-in rate** (exceeding the 25% North Star metric) by conducting competitive analysis, designing user journey flows, and partnering with Marketing to leverage existing web presence for top-of-funnel acquisition on the Battlefield Webstore.
- Built a business case for mobile optimization by identifying a **15% conversion gap** through SQL and Looker analysis, benchmarking against industry standards and adjacent epics to define next quarter's optimization roadmap and generate prioritized product backlog.
- **Captured \$2M in additional revenue** by conducting end-to-end user journey analysis across mobile and desktop webstores, identifying checkout friction points and running A/B tests on fast-checkout options and improved autofill flows.
- Aligned 5 cross-functional teams on API performance and scalability decisions through PRDs and technical project orchestration.

Suncor Energy

Calgary, AB

Process Engineer and Development Intern

May 2024 – March 2025

- **Drove 40% increase** in executive dashboard adoption by architecting a Power BI tracking system with automated SQL data pipelines, replacing manual reporting cadences and enabling data-driven decisions across leadership.
- **Reduced water treatment chemical costs by 10%** by analyzing coagulant performance data and identifying an optimized chemical combination, validated through process A/B testing.
- Performed root cause analysis on equipment malfunctions through onsite investigation to identify failures and drive corrective action.

Deloitte Touche Tohmatsu Limited

Kuala Lumpur, Malaysia

Technology Consulting Intern, Oracle Team

May 2023 – Aug 2023

- Built and demonstrated client-facing Oracle APEX dashboards for enterprise cloud migration engagements, coordinating technical roadmap alignment across 30+ stakeholders and **boosting decision-making efficiency by 30%**.

PROJECTS

Coddle (Co-Founder)

January 2026 - Present

- Built and shipped a full-stack AI cooking app (React Native, Node.js/Express, PostgreSQL, Firebase Auth, Claude API) to 25+ beta users and generated over 500 AI-generated recipes across testing and live sessions.
- Led product direction and drove a pivot from inventory-first to generate-first based on user research, reshaping the core UX.
- Enforced scope discipline to prevent feature creep, flagging out-of-scope additions rather than shipping them silently.

SKILLS

Product Management: Product Roadmapping, PRD Writing, Customer Discovery, User Research, A/B Testing, Funnel Analysis, Cross-Functional Collaboration, Stakeholder Management, OKRs, Go-to-Market, JIRA, Confluence, Asana

AI/ML: LLM Integration (GPT-4, Claude), Prompt Engineering, Agent-Based Systems, AI Product Strategy

Data: SQL, Mixpanel, FullStory, Pendo, Tableau, Power BI, Looker, Salesforce, Data Modeling

Technical Skills: JavaScript, TypeScript, Python, Node.js, React, API Integration, C, Git, Cursor, Claude Code

Design & Strategy: Figma, FigJam, Miro, User Flow Design, Technical Writing
